Blästrar, Målar & Metalliserar

About the company

About Henry Allt i Allt

"I believe in business one should create value, keep promises and have integrity. Henry Allt i Allt has been built on these values to have a strong foundation for growth and stability. Aiming to make difference in this world we do it by fixing things that are important to the people"

Pär och Markus Göransson

Henry Allt i Allt has been in the Rope Access-business for 4 years and most of our projects rolled out around Europe.

About the TEAM

Henry Allt i Allt's travelling team has 25 technicians with a variety set of skills. All the personnel have IRATA certifications, are fluent in English and have work related tickets.

Great people want to work in great teams and great teams provide excellent service. To make sure we have the best team and bring value to the customer, we select our people carefully. Continuously extended performance capabilities allow to adjust our offer to market demands and to the individual requirements of Customers on a running basis.

World Class in Rope Access

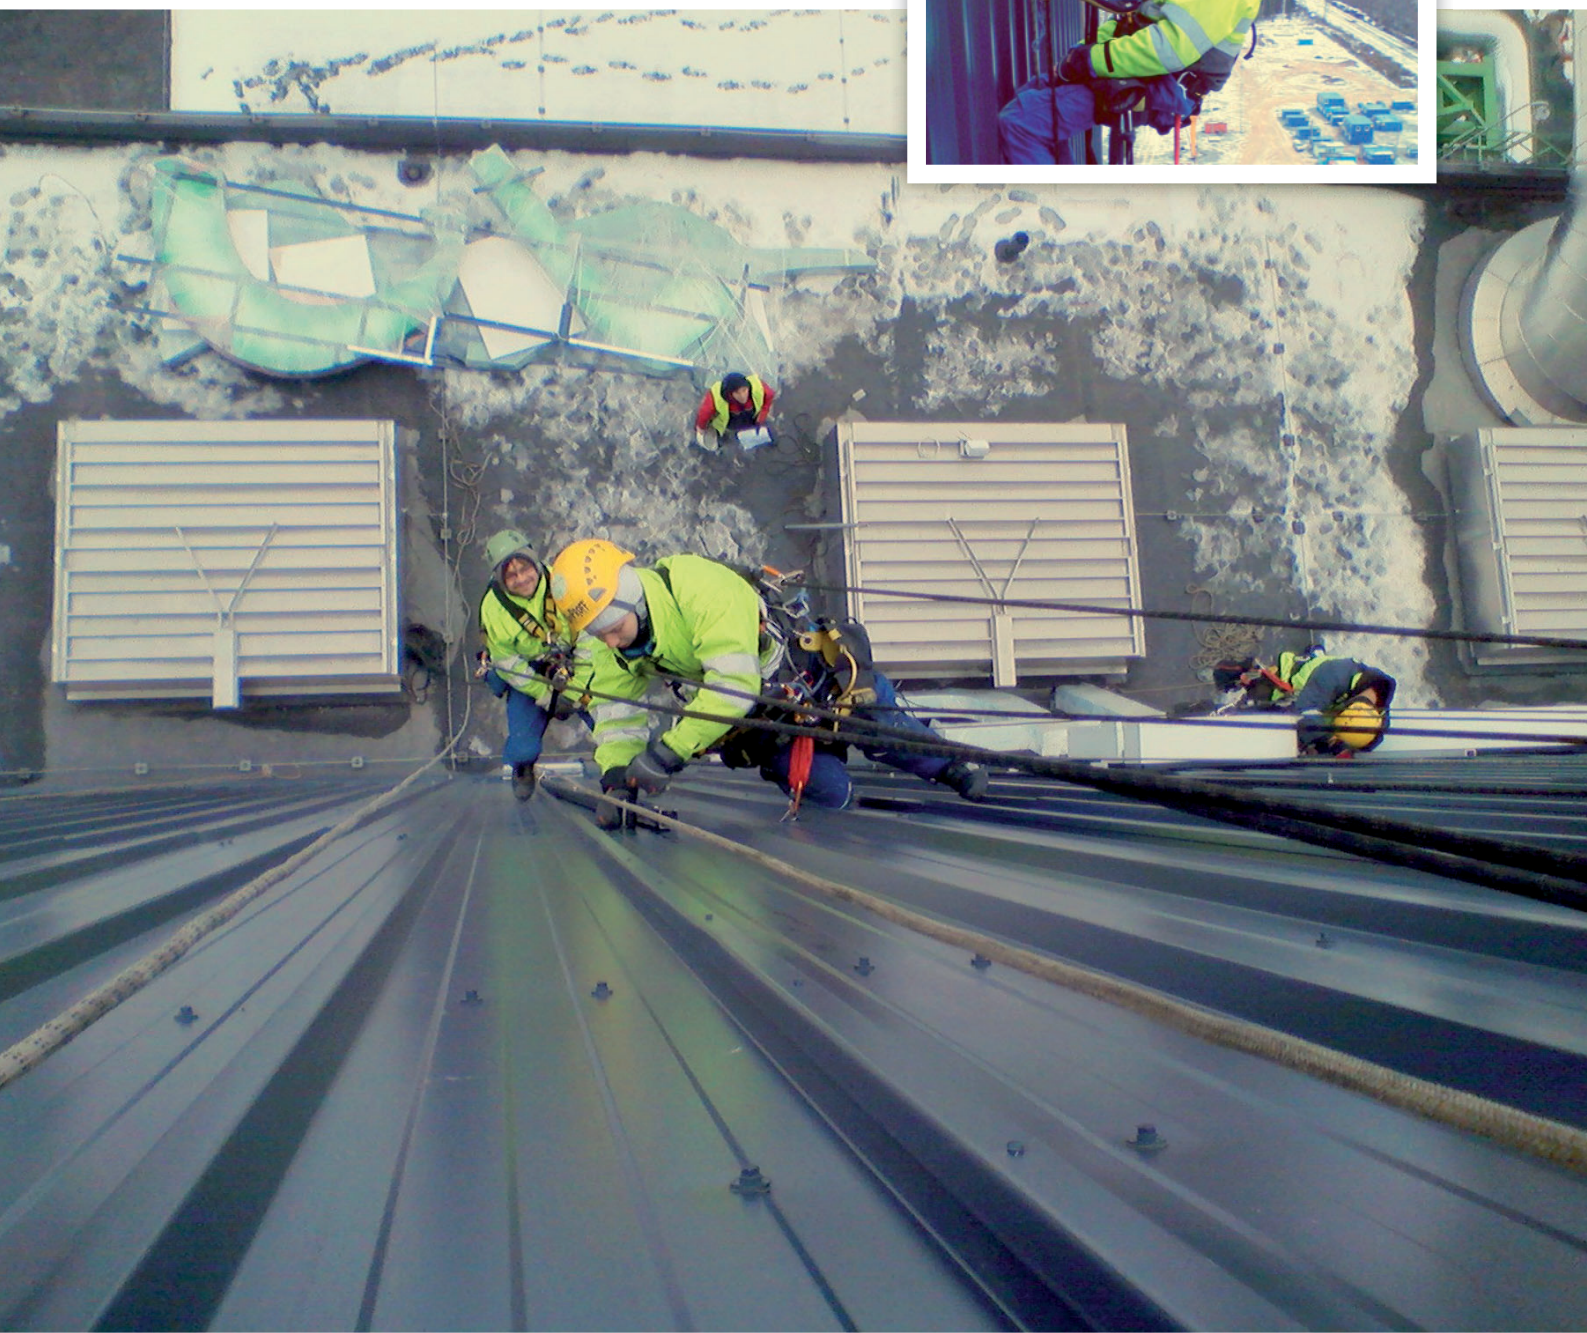

Rope Access provides safe method to operate in inaccessible areas.

We are alternative solution for Elevated Platforms, Scaffoldings and Cranes. Building construction, maintenance and installation costs can be reduced by using rope access technicians.

General Building and Construction

We are optimum alternative to elevated
platforms, scaffoldings, lifts and cranes.

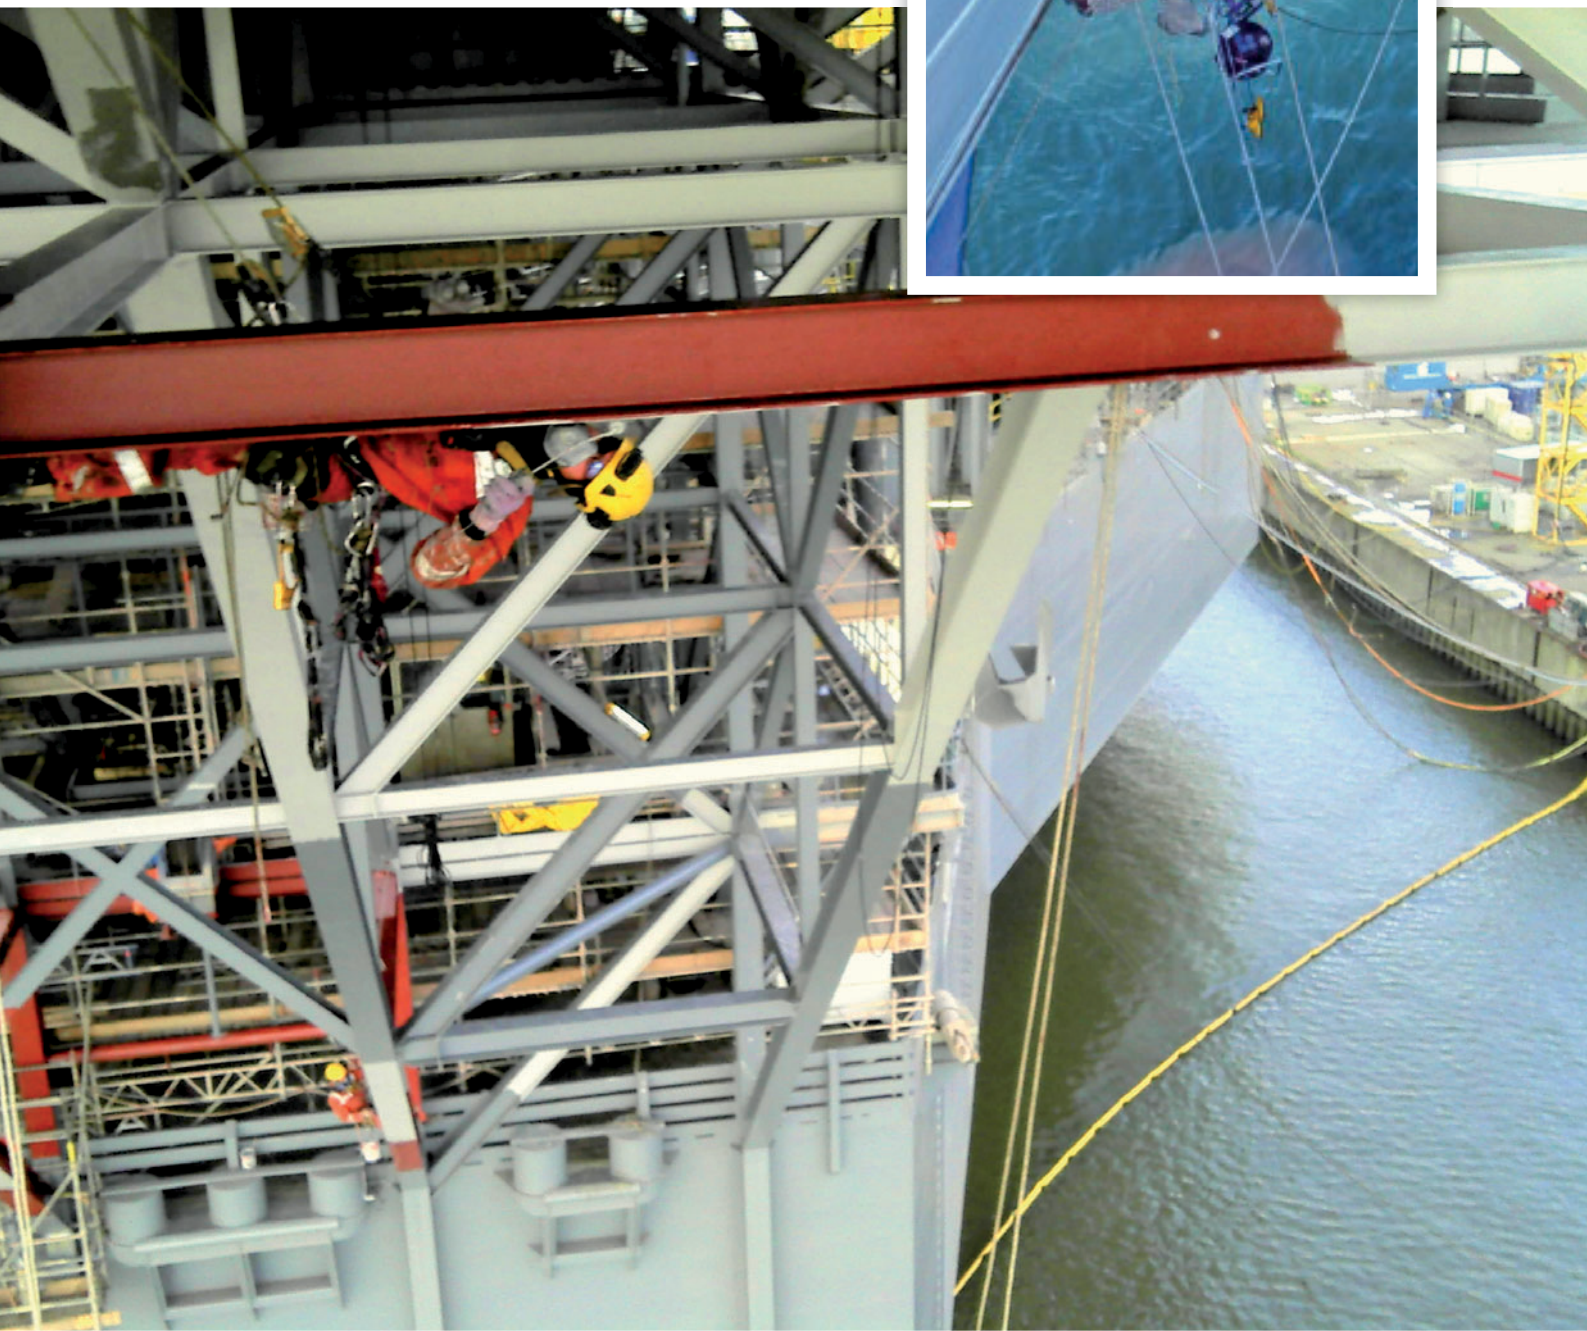

Heights don't matter

Clients love the fact that with rope access they pay fraction of the cost of traditional methods.

Blasting and Painting

Climbing and working is what we do best.

Rigging and Installation

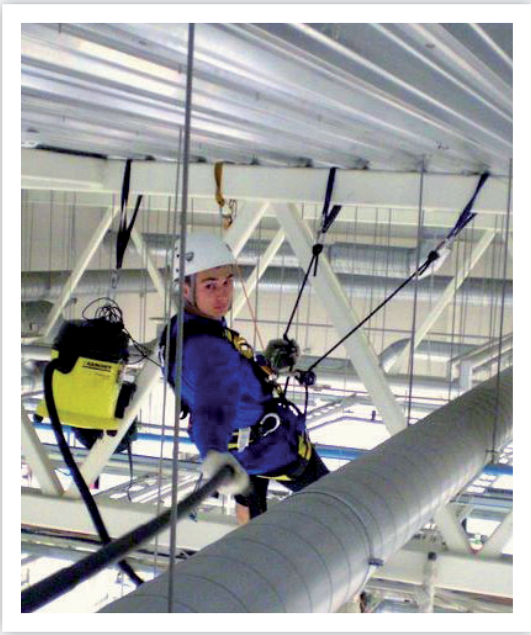

Setup is fast, safe and environmental.

Inspection and NDT

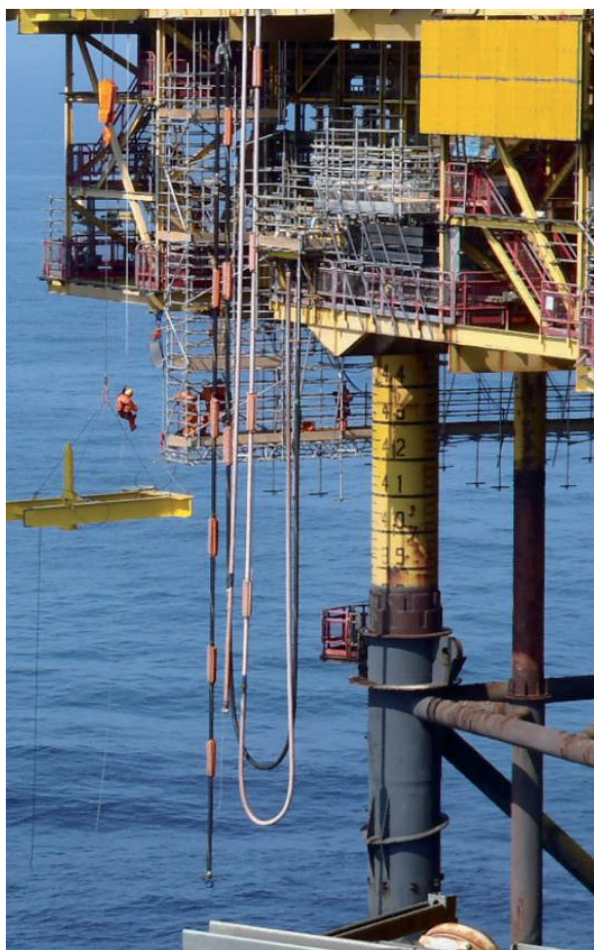

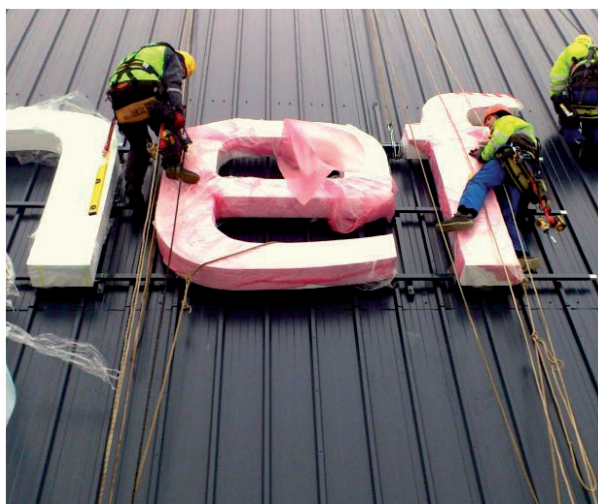

Industrial Cleaning

Maintenance of concrete structures even in confined Spaces
